

## SHARED PRAYER AND SUPPLICATION

O God Almighty, we believe and witness that You are the most generous and giving God of hope, love, and generosity.

O Merciful God, bless us all with your gift of generosity and charity so that we may, with the power that you grant us, spread hope in the hearts of the sick and the weary.

O God, grant everlasting rest to all the departed donors. Console and comfort their families and grant their loved ones long and healthy lives. Swiftly heal all patients, and inspire all physicians to discover the most effective treatments, and spread out their science to relieve the suffering and misery of all patients.

O God our Lord, we pledge to join forces to promote the culture of organ donation. O God of mercy, who weaved love and goodness into our hearts, lead us to succeed in this noble cause.

O God, bless us all: donors, patients, physicians, officials, and volunteers, so that we may ensure that Your Will be done. O God of goodness and truth free us from selfishness and arrogance. Deliver us from corrupting the life, health, and dignity of humans.

O God, shine your light of knowledge in the minds and hearts of those devoted to perform this blessed work in the service of all people. O Most Merciful Generous God, bestow health and well-being upon us, upon our children and relatives, upon all the Lebanese people, and upon all of Humanity. Amen. Amen. Amen.
